

Envirosofi

'Select measurements' allows the user to configure which channels are featured in which report (Only available once logged in) .

To include a measurement in the WID report, first tick '**WID Report**' at the top of the page, then ensure the desired channels are ticked along the top row, then click '**Save and Close**' in the '**options**' menu to apply the change.

The same process applies when selecting which gases to include in the Daily Report (Ensuring WID Report is not ticked)

'Summary' will display the average for the whole day's readings. 'Show standby info' will display which analyser was used for each average (only applicable when redundant analysers are available. 'Alternative average' changes the average reading from 30 minutes, to usually 10 Scroll through minutes – used as a percentile analysis – see below each days report using the left and right arrows Show standby info Summary _____ Close v,v, CSV 🛛 👗 Excel 🚽 💾 Print PDF Setup Export the daily report as a PDF, Period CO mg/Nm3-C CSV or as an Excel document 0.2 110.3 59.7 Waste 0.1 Waste 30.4 Waste 43.1 0.7 49.4 10.7 0.1 Waste 0.1 Waste Waste 0.0 Waste Waste 0.1 **Summary Report** Waste 0.1 Waste 0.1 0.1 0.1 Waste Summary Show standby info Alternative average Report \sim Select measurements Close 0.1 28.9 Waste Borders 65 Column widths 26/10/2019 + PDF v,v, CSV 👗 Excel 🛛 📇 Print Setup 14.9 Waste 19.3 Waste 5.1 Daily CEMS summary report for 26/10/2019 23.2 Waste
